Workshop Registration and Reception

*Northwest Building B Level, 52 Oxford Street, Cambridge, MA*

Please arrive early and make sure to check in. Bring your Eventbrite session ticket (printed out or on your smartphone). Walk-ins and wait-listed individuals will be admitted on a space-available basis starting 15 minutes before the workshop. Harvard participants will receive priority.

(Note: The Wednesday, Thursday, and Friday workshops at 1:30pm offered by FAS Research Computing will be held in the Science Center. Those registered, wait listed, or hoping for a walk-in spot for these three sessions should proceed directly to the Science Center for registration. They do *not* need to check in first at the Northwest Building first.)

Workshop Locations

Workshops will be held in Northwest, Maxwell Dworkin and the Science Center. Please check in at the registration desk in the Northwest Building to be directed to your location (except for the three workshops held in the science center mentioned above).

Workshop Preparation

*Bring your own laptop* to all workshops. If you don’t have one available, you will be able to watch presentations but not participate in exercises. *Make sure your laptop is fully charged*, as access to power outlets is limited in some rooms. You will receive information about any software and/or account requirements in your workshop confirmation email(s).

Wi-Fi

Harvard participants should bring a laptop registered on the Harvard wireless network or register it onsite using HUID and PIN. Others: please look for information on guest wi-fi arrangements at the registration desk or in the event program.
Lunch and Break Options

There are several affordable options within a five-minute walk:

- Northwest Cafe, Northwest building (directly above the registration area)
- Buckminster’s Café, LISE building (2 minutes South of Maxwell Dworkin)
- Harkness Cafe, Harvard Law School
- Greenhouse Café, Harvard Science Center
- Harvard Square

Directions

The SEAS campus is part of the Harvard University campus located in Cambridge, Massachusetts. The main buildings are located just north of historic Harvard Yard (beyond the Science Center) and are bounded to the east by Oxford Street. To the west, across an oak-filled quadrangle, is the Harvard Law School.

By Subway

- Take the MBTA subway Red Line towards Alewife.
- Get out at the Harvard Square stop. After exiting the subway station, you will be just outside Harvard Yard near the Johnston Gate.
- Enter Harvard Yard through Johnston Gate, bearing left (shown on the map). Walk through the quad towards the Science Center and follow the path shown on the campus map to the SEAS buildings.
- The SEAS buildings will be on your left beginning with Gordon McKay Laboratory, then Pierce Hall, and Maxwell Dworkin. The Northwest building is located directly across the street from the Maxwell Dworkin building. It is the large, modern, glass building set back from the street.
- The walk from Harvard Square to the SEAS campus should take between 6-10 minutes.

By Car

- Google map
- Yahoo map

Parking

Metered parking in and around the Harvard campus is extremely limited. We recommend that students and visitors coming by car purchase parking permits for Harvard garages. The Everett Street and Oxford Street garages are closest to the SEAS campus. Permits can be purchased directly from the Parking Office at https://www2.uos.harvard.edu/cgi-bin/permit/purchase.pl. Daily parking permits are $15.00 per day. Parking permits must be purchased in advance.

Before proceeding to the online form, please note the following:

1. If you are a first-time user, you will need to register by creating a username and password.
2. You will need a printer to print out the parking permit.
3. Have your car’s license plate number ready. No permit can be purchased without a current plate number.
4. You will be asked to select a parking lot. We recommend selecting the garage at 52 Oxford Street or the 10 Everett Street garage, if available.
5. You will be asked for the date of the permit. Be sure to select the correct date (permits are not transferable.)
6. Choose the department from a drop down list. Select School of Engineering and Applied Sciences.
7. Enter the school's department code: 2006.
